CUSTOM PRESSURE WASHERS

Working Well Under Pressure

Custom Pressure Washers

Our relationships in the Agriculture, Automotive, Construction, Food Processing, Gas, Oil, Mining, Military, Government, Janitorial, Plumbing, Pork Production, and Industrial Marketplace allow Cam Spray to be driven by Industry and pushed to offer efficient, dependable, and on time solutions year after year.

Let Cam Spray explore with you the types of custom work we can do to help find a solution to build your "dream machine". Cam Spray's custom built pressure washers are a necessity for many of our business partners; custom machines have been part of the foundation of Cam Spray. We have found that there are many applications that the average off the shelf machinery will not handle due to space restrictions, limited access, hazardous locations and many other features that limit your ability to clean. All of these restrictions waste time and money that with minor changes it would be a breeze to clean with the right equipment. With our in house design and metal fabrication capabilities, Cam Spray is your high pressure partner.

Cam Spray's in house capabilities and capacities, along with the innovation and motivation of our American work force, allows Cam Spray to be your partner in business no matter the project. Cam Spray is here for you, to work well under pressure!

Working Well under Pressure is something Cam Spray takes seriously!

Cam Spray labels every machine with our 800-648-5011 phone number so that the end user always has access to our customer service team. We are ready to get your question answered and get you back to work. The relationships we have built allow Cam Spray to offer parts and service solutions. Cam Spray has in house parts, warranty, and service managers ready to go to work for you! With service partners in all 50 states, Cam Spray is a proven partner you can depend on.
